

How it Works?

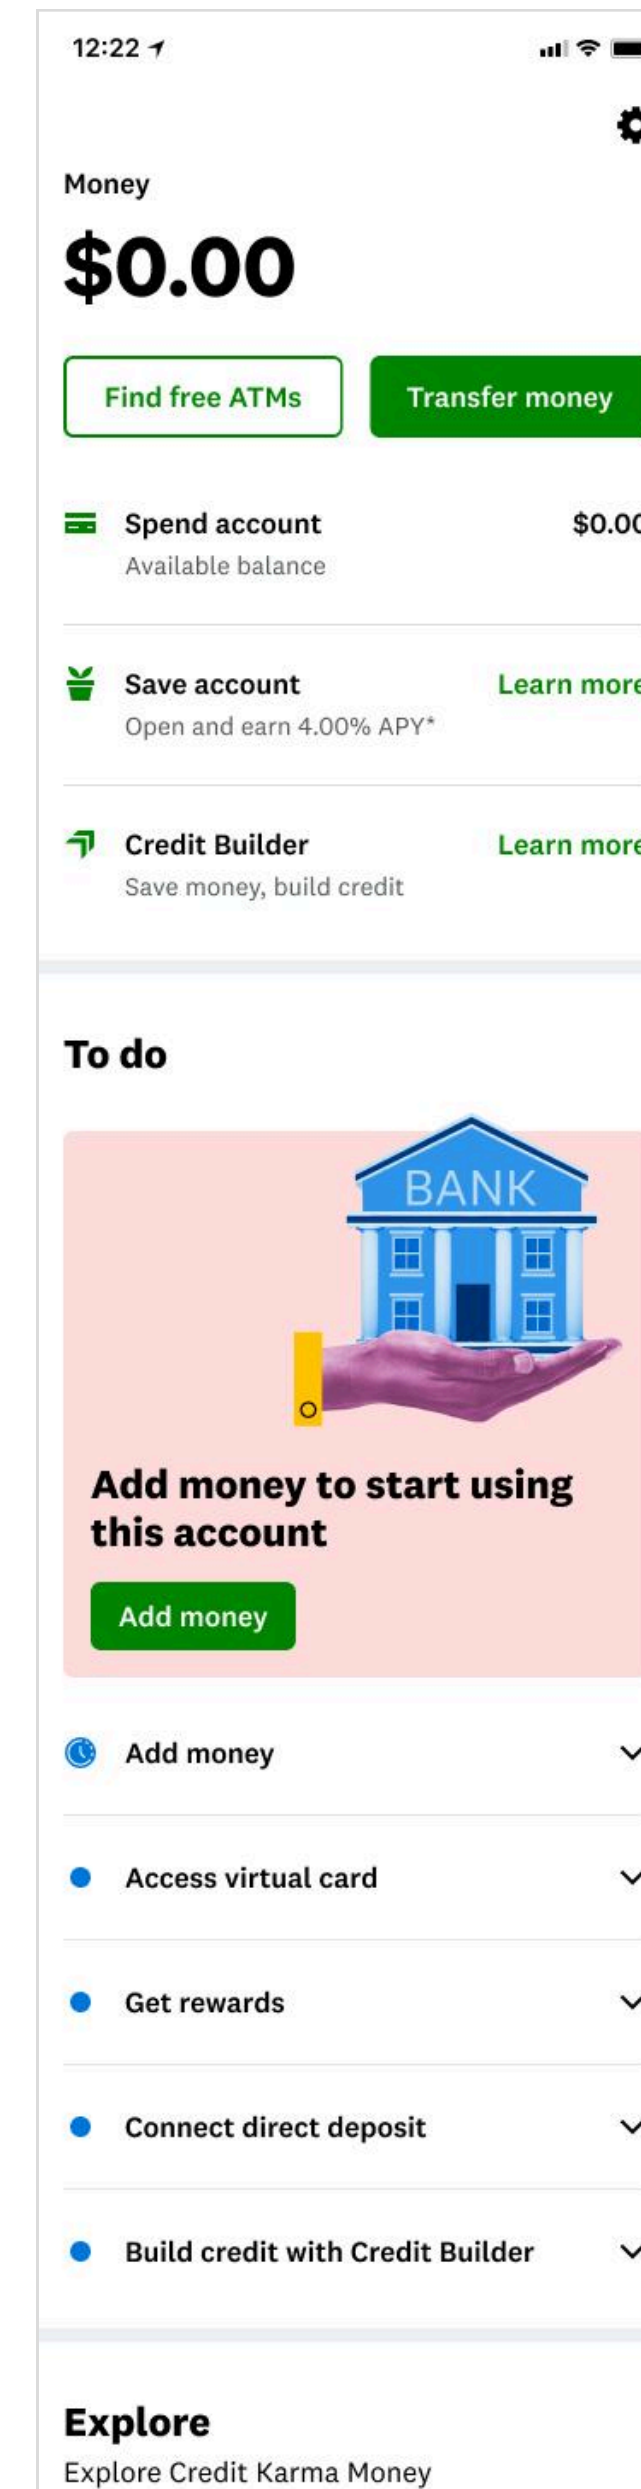

What is it?

New “guided” onboarding experience for members called “Orientation” formerly FTUE

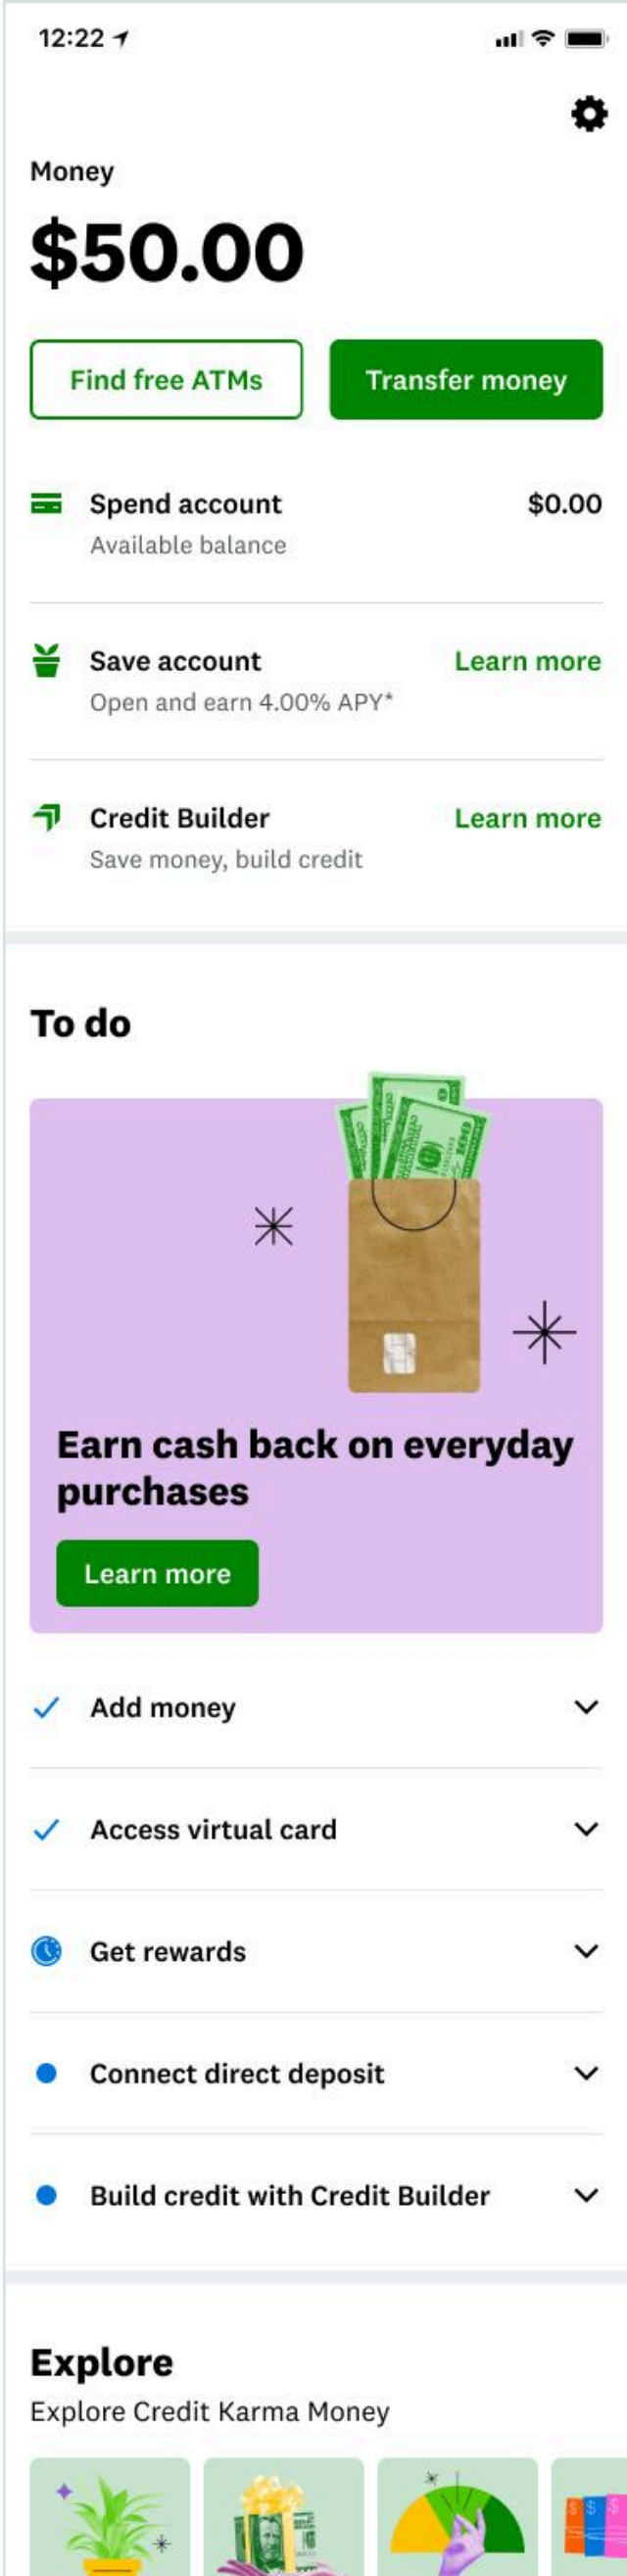

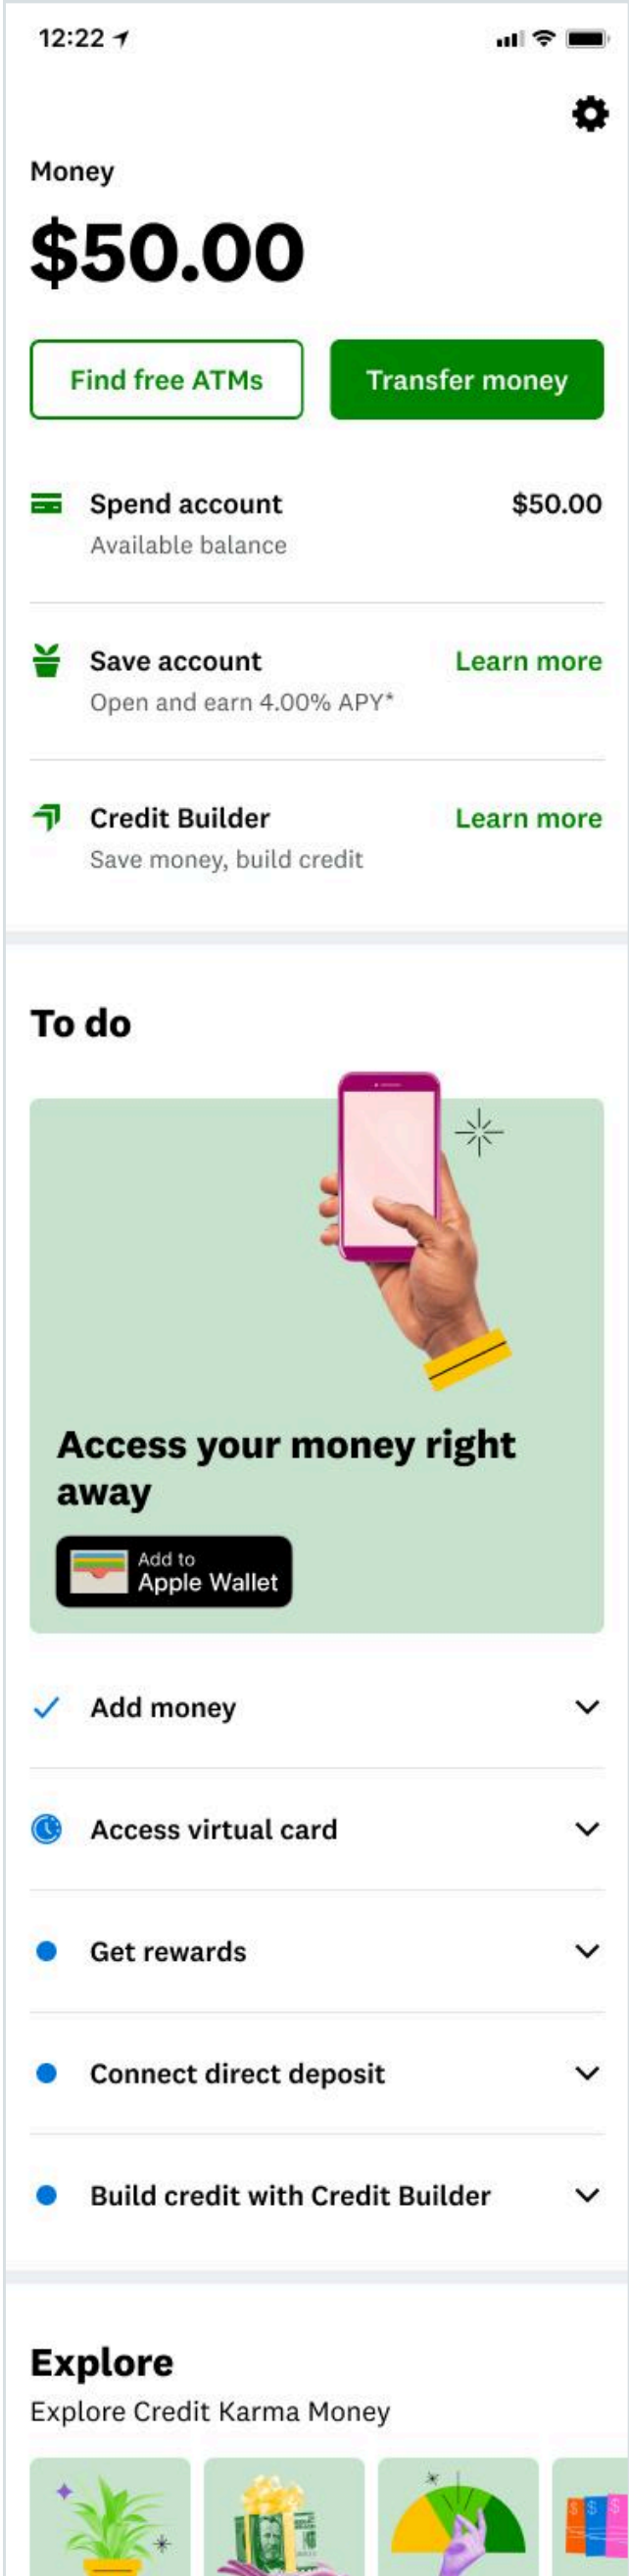

What is it really?

It's a section on the Money Tab that gives members suggestions of actions that could be taken to get the most out of their Money accounts.

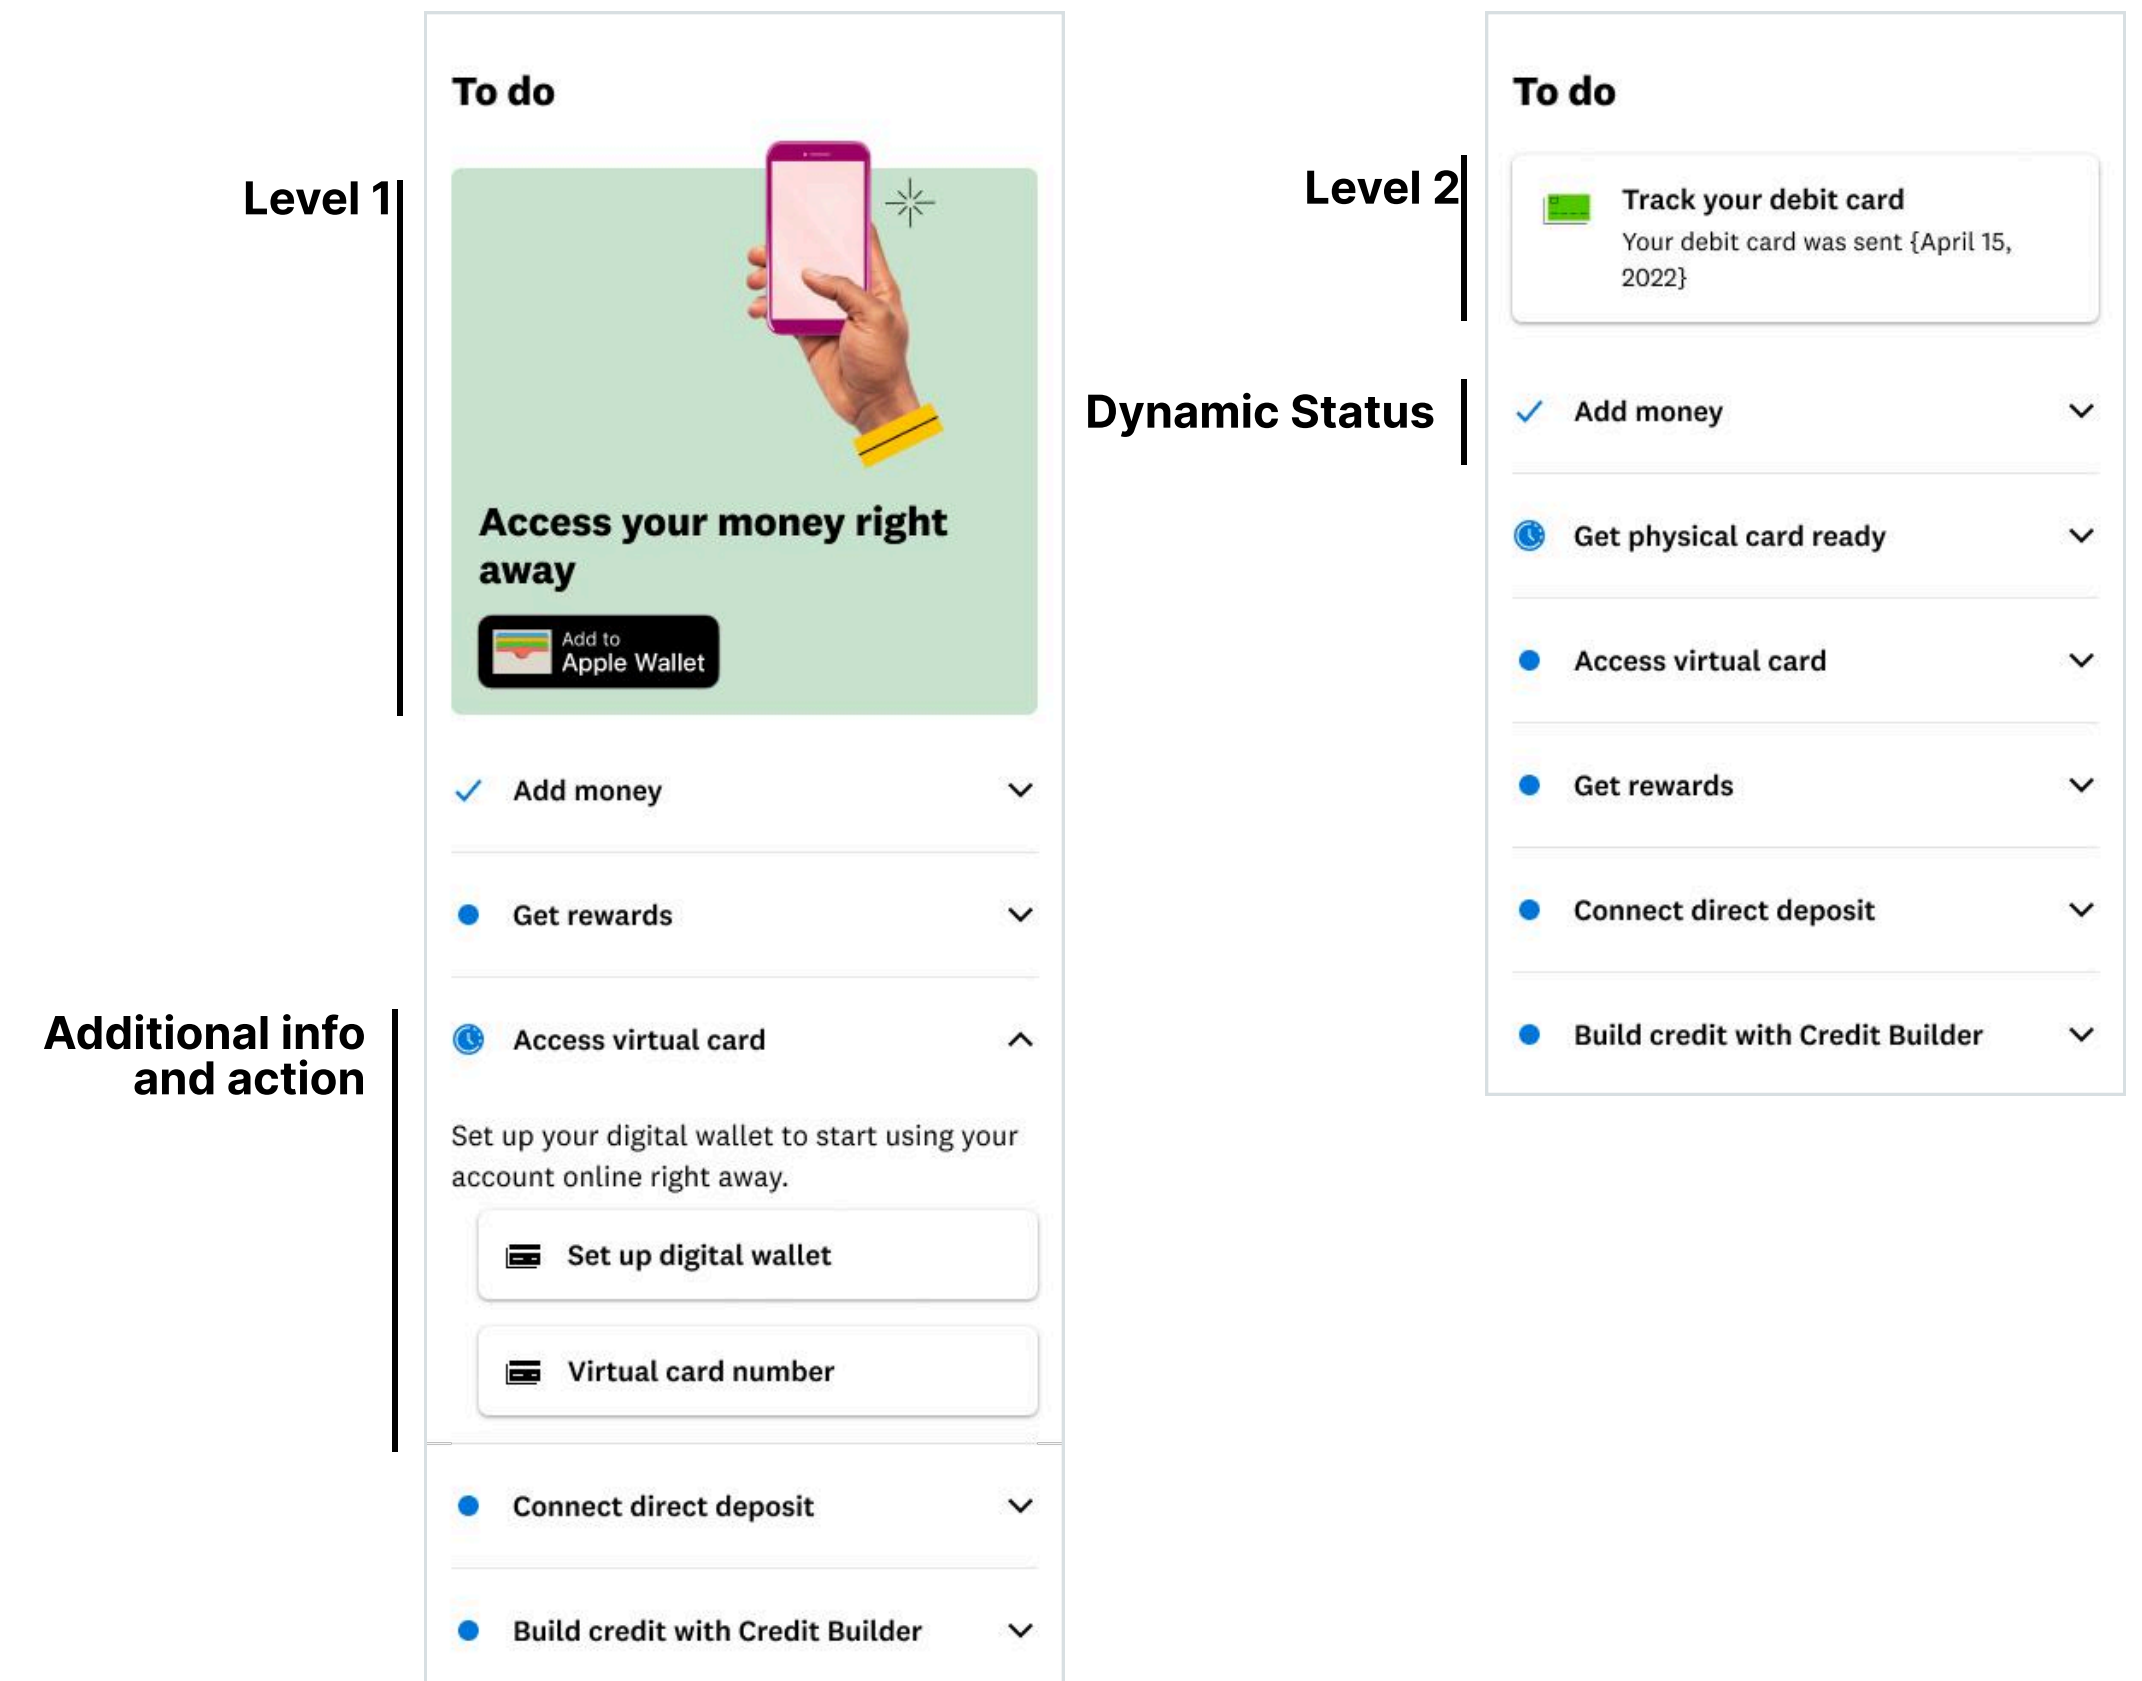

How does a member move from one stage to another?

A member moves from one stage to another by either taking an action or after a certain amount of time.

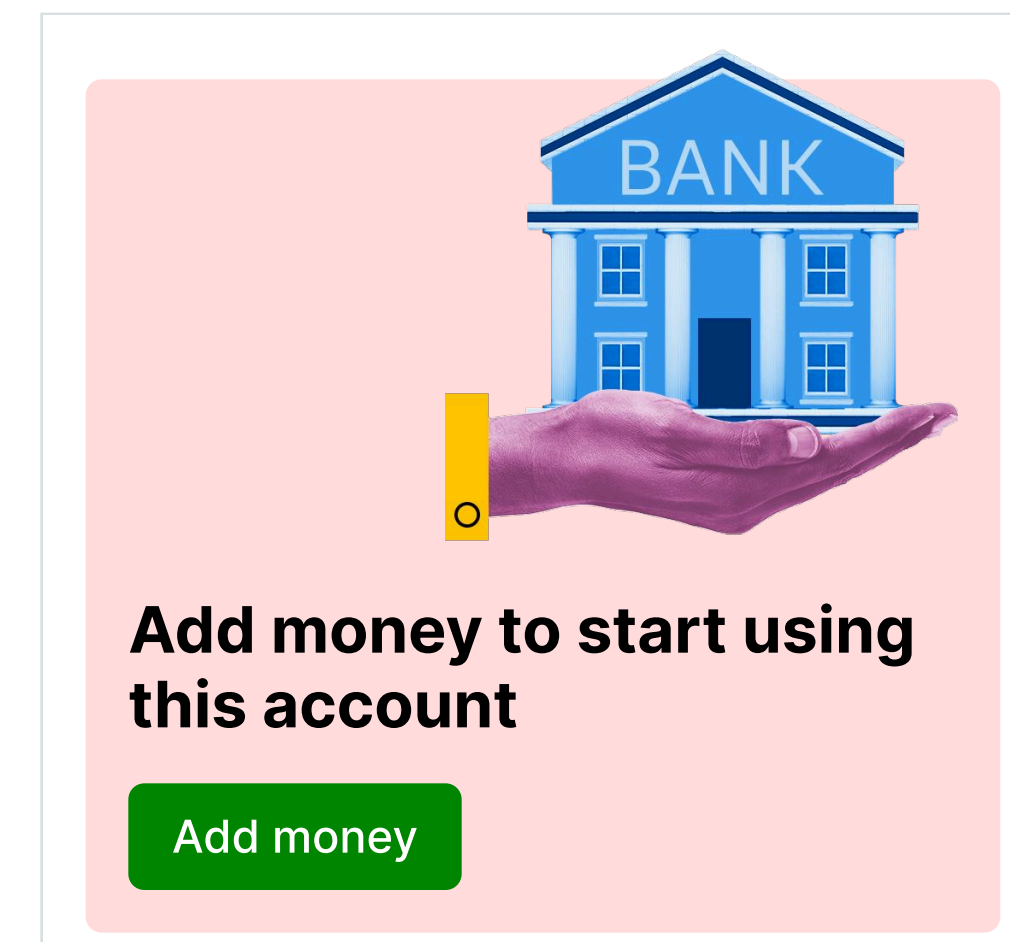

What are the different parts?

Orientation consists of a Level 1, Level 2, additional info and action section, and dynamic statuses.

What's Level 1?

Level 1 is the most important action a member can take to move to the next stage.

Visually the most prominent thing on the page

What's Level 2?

Level 2 is an action a member can take within a particular stage. This action **does not** move a member to a new stage.

Track your debit card

Your debit card was sent {April 15, 2022}

What's additional info and actions?

Additional info and actions
is where member can find
out more information about
the stage and additional
actions.

 Get physical card ready 

Access cash from ATMs. Ideal for gas and in-store purchases.

 Track your debit card

 Activate your debit card

 Request a new card

What are dynamic statuses?

Dynamic statuses are UI symbols that let the member know what stage they are in (active), skipped, not started or completed.

Completed

✓ Add money

✓ Access virtual card

Skipped

🕒 Get rewards

Active

🕒 Connect direct deposit

Not Started

● Build credit with Credit Builder

To do

Get your paycheck up to 2 days early*

Set up direct deposit

*Compared to standard electronic deposit. Early access is dependent on timing of payor's submission.

How is the order of stages (path) decided?

In the past this has been based on data and how specific member's used the account.

	TT newly opened this tax season and got tax refund					
	What does refunded user usually do and when they take action					
	DW_activated	refund& DD users	%	% of DD& refund&action taken		Del
no action taken	none	1825	5.32%			non
action taken after DD	after_DD	3912	11.40%	12.04%		afte
action taken 0-7 days before DD	pre_DD07	1322	3.85%	4.07%		pre
action taken 8-14 days before DD	pre_DD14	1708	4.98%	5.25%		pre
action taken15-30 days before DD	pre_DD30	4056	11.82%	12.48%		pre
action taken 31-60 days before DD	pre_DD60	6767	19.71%	20.82%		pre
action taken 61+ days before DD	pre_DD60+	14739	42.93%	45.35%		pre
			100.00%	100.00%		
	plaid_link	refund& DD users	%	% of DD& refund&action taken		car
no action taken	none	12610	36.73%			non
action taken after DD	after_DD	4093	11.92%	18.85%		afte
action taken 0-7 days before DD	pre_DD07	811	2.36%	3.73%		pre
action taken 8-14 days before DD	pre_DD14	1031	3.00%	4.75%		pre
action taken15-30 days before DD	pre_DD30	2406	7.01%	11.08%		pre
action taken 31-60 days before DD	pre_DD60	3863	11.25%	17.79%		pre
action taken 61+ days before DD	pre_DD60+	9515	27.72%	43.81%		pre
	95%+ DD activate Digital wallet and debit card and make a purchase					
	almost all Debit card activation happen before DD, purchase and digital wallet also predates DD					
	compared to other feature, savings open also happen after DD					
	something good users always do and bad users do not do					

Spreadsheet

How can we experiment?

We can experiment on order
of stage (path), time
between stages, copy, and
components.

To do

Access your money right away

 Add to Apple Wallet

 Add money

 Get rewards

 Access virtual card

Set up your digital wallet to start using your account online right away.

 Set up digital wallet

 Virtual card number

 Connect direct deposit

 Build credit with Credit Builder

What shouldn't change when experimenting?
A member should only have 1 focus (Level 1 or 2 action) at a time.

DO

To do

Earn cash back on everyday purchases

☐ Build credit with Credit Builder

DON'T

To do

Get rewards

Connect direct deposit

Credit Builder

Bill Pay

☒ Add money

☒ Get rewards

☐ Connect direct deposit

☐ Build credit with Credit Builder

☐ Pay bills

Things to keep in mind

Orientation is about **discovery** and helping members get the most out of their money account.

Orientation is about **intention** and when's the best time to introduce a feature or action.

Orientation is about **focus** and not bombarding our members with too much.

Orientation is about **encouraging members to do the thing they haven't done and that's it**. It's not about bringing in useful information about things they've already done.
