

Alicia Wood

Product Leader

I'm a product leader with over 15 years of experience spanning individual craft to design management in fintech. At Intuit Credit Karma, I progressed from Senior Product Designer to Senior Manager, Product Design in under four years, building and leading design teams, shaping product strategy with cross-functional leadership, and raising the bar on design craft. I combine strong systems thinking and DesignOps rigor with empathetic people first leadership. I've adopted and helped my team adopt AI tools (Claude, ChatGPT, Notebook LLM, Cursor) to accelerate design and team workflows.

Experience

Intuit Credit Karma Nov 2021 – Present · Charlotte, NC

Promoted multiple times in the span of four years for consistently elevating team performance and design quality. I managed and mentored a team of product designers, directing end-to-end design for Credit Karma banking products and Credit Karma connection to TurboTax from discovery through launch. I mentored designers, worked cross functionally with product, engineering, marketing, content designers, and analytics. I also contributed to design system standards and design operations adopted org-wide.

Senior Manager, Product Design Apr 2025 – Present

Product Design Manager II Apr 2024 – Apr 2025

Product Design Manager Dec 2022 – Apr 2024

Staff Product Designer Sep 2022 – Apr 2023

Senior Product Designer II May 2022 – Sep 2022

Senior Product Designer Nov 2021 – May 2022

Capital One Investing Jul 2020 – Oct 2021 · McLean, VA

Senior User Experience Designer

Led UX design for the Capital One Investing product, partnering with business SMEs, product, and engineering to solve business and user experience problems.

United Income Nov 2018 – Jul 2020 · Washington, DC

User Experience Designer

Led design projects end-to-end, from discovery through implementation, for a financial planning and investment platform, partnering cross-functionally with product management, engineering, and visual design. Conducted multiple research studies to inform product decisions.
